SUMMARY

Detail-oriented and security-focused GRC Engineer with a strong foundation in regulatory frameworks, risk assessment, and technical control validation. Certified in GRC Fundamentals, ISO 27001 ISMS, and SAP GRC Essentials, with hands-on experience mapping policies to standards such as NIST CSF, NIST AI RMF, and ISO/IEC 42001. Combines deep technical proficiency in Linux environments, system administration, and automation scripting with a robust background in cross-functional operations and regulated technical support. Eager to deliver continuous compliance, robust risk governance, and automated evidence collection for a dynamic security team.

TECHNICAL SKILLS & FRAMEWORKS

- **Frameworks & Standards:** NIST CSF, NIST SP 800-53, NIST SP 800-30, NIST AI RMF, ISO/IEC 42001, ISO 27001, Secure Controls Framework (SCF)
- **GRC & Compliance Tools:** Eramba, Splunk, Open Policy Agent, TryHackMe Security Operations
- **Programming & Scripting:** Python (JSON parsing, automation scripting, API data handling), Bash/Shell scripting
- **Operating Systems & Infrastructure:** Linux (Linux Mint, Pop!_OS), System Administration, Network Security, Terminal Operations, VPN & Access Routing
- **Documentation & Version Control:** Git, GitHub Markdown, Technical Policy Drafting, Audit Reporting

CERTIFICATIONS & TRAINING

- Simply Cyber GRC Analyst Master Class
- ISO 27001 ISMS Certification (Alison)
- SAP GRC Essentials Certification (Alison)
- GRC Fundamentals Certification (Alison)
- TryHackMe SOC Level 1 Pathway (Splunk, ELK Stack, EDR, SOAR tools, Pyramid of Pain)

GRC PORTFOLIO PROJECTS

GRC Compliance and Risk Management Portfolio

GitHub: pishacharuiz-cmd/grc-portfolio

- Developed and published structured Governance, Risk, and Compliance documentation, control mappings, and lab artifacts.
- Built automated Python script utilities to parse structured control framework configurations (JSON) and generate actionable GRC audit status reports.
- Authored risk assessment frameworks and policy documentation mapped to industry-standard control baselines.

PROFESSIONAL EXPERIENCE

CenterWell Pharmacy (Conduent)

Medication Validation / Customer Support Specialist | Puerto Rico

- Operated within highly regulated healthcare and data privacy environments, strictly adhering to compliance protocols, quality assurance standards, and data security mandates.
- Handled sensitive records and verified complex transaction details while maintaining precise documentation and audit trails.

EDUCATION

- Associate's Degree in Computer Programming – IBC (Puerto Rico)
- Associate's Degree in Music Education – Inter American University of Puerto Rico
