Professional Summary

Results-driven IT GRC Analyst with a strong background in healthcare operations, regulatory compliance, and security frameworks. Proven expertise in mapping controls, automating evidence collection workflows, conducting risk assessments, and aligning technical operations with HIPAA, SOC 2, and NIST guidelines—including emerging AI governance standards. Adept at translating complex regulatory requirements into actionable security controls and clear, audit-ready documentation.

Core Competencies & Technical Skills

- **Frameworks & Standards:** HIPAA Security & Privacy Rules, SOC 2, NIST CSF, NIST AI RMF, ISO/IEC 42001, CIS Controls
- **GRC & Audit Operations:** Risk Assessments, Control Gap Analysis, Evidence Collection, Policy-as-Code, Third-Party Risk Management (TPRM)
- **Automation & Tooling:** GRC Platforms (e.g., Eramba), Splunk, Open Policy Agent, Linux System Administration, Bash Scripting, Git
- **Healthcare Domain:** Clinical Operations, Medication Validation, Patient Data Privacy, Secure-by-Design Principles

Professional Experience

CenterWell Pharmacy (Conduent) / Telecontacto Contact Center

Healthcare Operations & Technical Support Professional

- Managed sensitive patient data and operational workflows within heavily regulated healthcare and contact center environments, ensuring strict adherence to compliance and privacy protocols (HIPAA standards).
- Partnered with cross-functional teams to troubleshoot technical control failures, streamline processes, and maintain secure operational baselines.
- Documented standard operating procedures and risk mitigation steps, contributing to continuous audit readiness and operational resilience.

Micheo Music

Operations & Project Specialist | 2014 – 2023

- Executed detailed administrative, operational, and client-facing responsibilities requiring strict organization, documentation discipline, and adherence to quality standards.

| Education & Certifications

Associate's Degree in Computer Programming – IBC

Associate's Degree in Music Education – Inter American University of Puerto Rico

Certifications: Simply Cyber GRC Analyst Masterclass, GRC Fundamentals & ISO 27001 ISMS, SAP GRC Essentials, TryHackMe SOC Level 1 & Security Operations Paths

| Key GRC & Automation Projects

GRC Portfolio & Policy Automation (grc-portfolio)

- Developed and published a public compliance repository mapping security controls against frameworks like NIST AI RMF and ISO/IEC 42001.
- Built policy-as-code documentation templates and automated risk assessment workflows to streamline evidence collection and reduce manual audit overhead.
